Summary

I'm a B.Tech student in Information Technology at Netaji Subhash Engineering College (NSEC), Kolkata, with a deep passion for technology and innovation. I bring strong skills in programming, data analysis, and software development, backed by a solid academic foundation and hands-on project experience. A fast learner by nature, I thrive in dynamic environments and actively seek out challenges that push me to grow. With a keen eye for problem-solving and a commitment to continuous improvement, I'm well-prepared to contribute meaningfully and succeed in the ever-evolving IT industry.
